## Summary

I am 19 years old, a Web and Desktop Developer, IT Technician, and Artificial Intelligence enthusiast. I participated in the creation of management systems and IT support, applying best practices in programming, databases, and integration of modern technologies.

I have knowledge in React.js, HTML, CSS, JavaScript, PHP, C#, Python, Visual Basic, and MySQL, as well as proficiency in Microsoft 365 and data analysis in Excel. I also developed a personal portfolio with a functional contact form, using current technologies applied in my projects.

I am seeking an opportunity in the technology field to apply my knowledge, expand my skills, and contribute to challenging projects. I have excellent communication, am proactive, collaborative, and work well in teams—qualities that allow me to add value in dynamic and innovative environments.

## Education

- High School Diploma – Colégio João Paulo I, Bangu, Rio de Janeiro
- IT Technician – Colégio João Paulo I, Bangu, Rio de Janeiro
- Studying Systems Analysis and Development – Universidade Veiga de Almeida (UVA), starting February 2026

## Languages

- English – Intermediate

## Professional Experience

### **IT Department – Colégio de Aplicação Ferreira de Almeida (Jan/2026 – Present)**

- Customer service and technical support
- School system management
- Data analysis
- Preventive computer maintenance

### **Website Maintenance – Colégio de Aplicação Ferreira de Almeida (May/2026 – Present)**

- Hosting management
- Editing images and texts

### **IT Internship – Colégio João Paulo I (Apr/2025 – Sep/2025)**

- Data analysis in Excel
- Preventive, corrective, and evolutionary computer maintenance
- Technical support

### **Management System Development – Colégio João Paulo I (Apr/2025 – Present)**

- System for academic competition control
- Student access to register for activities
- Event seat reservation module
- Inventory management module

## **Academic Management System Development – Ingrid Soutinho Dance Studio (Oct/2025 – Present)**

- Complete system for student, class, and activity registration
- Enrollment and tuition control
- Automatic billing and reporting

## **Additional Experience**

- Full Microsoft 365 (Office) suite
- Video design and editing
- Programming tutoring
- Development with React.js, HTML, CSS, PHP, Python, C#, MySQL

## **Technical Skills**

- **Programming:** React.js, C#, PHP, Python, JavaScript, HTML5, CSS3
- **Databases:** MySQL (modeling, queries, integration)
- **Tools:** Git, Microsoft 365, VS Code, Visual Studio, Photoshop, Canva, CapCut
- **Systems:** Development of school and business management systems
- **IT:** Preventive and corrective computer maintenance
- **Multimedia:** Video editing and digital design

## **Soft Skills**

- Proactivity and initiative
- Strong interpersonal communication
- Teamwork
- Organization and results-oriented focus
- Fast learning ability
- Positive relationships with colleagues and clients

## **Projects**

### **School Management System – Colégio João Paulo I (PHP + HTML + CSS + JS + MySQL)**

- Multi-profile authentication
- Registration, queries, and reports
- Event seat reservation module

### **Academic System – Ingrid Soutinho Dance Studio (PHP + HTML + CSS + JS + MySQL)**

- Student, class, and activity registration
- Enrollment and tuition control
- Full CRUD and discount calculations
- Teacher portal for attendance
- Complete reporting module
- Ticket sales module

### **Personal Portfolio (React.js + HTML + CSS + JS)**

- Personal portfolio
- Direct email contact form

### **School Management System – Colégio João Paulo I (C# + MySQL)**

- Multi-level authentication
- Score registration and management
- Automatic reports with intuitive interface

### **Academic System – Ingrid Soutinho Dance Studio (C# + MySQL)**

- Student, class, and activity registration

- Enrollment and tuition control
- Seat and reservation management
- Full CRUD and discount calculations

## Courses

- Information Management Course – Sie EdTech (40h, focus on data analysis and organization)
- Santaander Bootcamp 2026 - DIO
- Python – Santander Open Academy
- Online Collective – Coca Cola
- Artificial Intelligence – Simplifica Training
